

Dear Friends!

It's been half a year since I have been living and serving in Ukraine together with my wife. It's been a time of changes, choices and adjustments.

Every day I face a magnitude of new challenges, experiences, feelings and responsibilities. Together with the help of our parents and friends, we managed to renovate our flat. We treat our home like a heart of our ministry. It's been always my recurring prayer that my home would be an oasis of love, rest and peace for many, a place where peoples' souls meet. When I get together with young people from Rovno, I desire to say and do things that arouse the life God's Spirit has placed within us so we can go on through dark nights or pleasant mornings with our eyes fixed on unseen reality. I think that is what the author of letter to the Hebrews had in mind when he told us never to stop getting together with others.

We also keep meeting with the children from a neighboring village every Friday. We play games and lead Polish classes. Those children have so little, and yet their enthusiasm, purity and authenticity are so inspiring and up building for us.

As you know, God has put a desire in our hearts to open a language school. We are still trying to explore different options. We hope and pray that God will materialize our dream and provide us with a place, teachers and students.

I still struggle with my visa a lot. I have to renew it every few months. Sometimes, I am overwhelmed by this situation but I trust the Lord knows what we need, and He will provide in a right time. If we had everything we would not be dependent upon Him.

I am eagerly waiting for my polish friends' visit in May. It is such a comfort to know that there are people who love and support us!

We are so grateful for your ongoing partnership in prayer and all the encouragement you send our way.

Thank you that we go forward with your support. We are in your debt.

With love, Bartek and Zhanna
